

Pre Event Planning

Getting Organised

A chance to meet to discuss exactly what you need and want for that special event. You will have a tailor made package designed around you and the aim of your event from the initial venue clean and set up where we will ensure all areas

are clean tidy stocked and ready to host your guests to the required washroom service keeping these high trafficked areas clean restocked and always ready throughout the whole event, the litter pickers working tirelessly constantly cleaning the site and ensuring empty waste bins to the clearing away and final complete site clean.

The initial chat is free and gives both you and us a chance to get to know each other.
